

TECHNICAL SPECIFICATION DATA SHEET: GWC SYNTHETIC THATCH; JAVA & CEBU

GWC brings a superior to natural thatch and other synthetic thatch products:

- Maintenance Free, Will not remold, rot, or shed.
- Resists termites, birds and other pests that normally infest and breakdown natural thatch.
- 100% waterproof and weatherproof.
- No season shortages because it is factory produced.
- 100% recyclable. Made of HDPE, high-density polyethylene.
- Built-in fire retardant.
- Will not fade or discolor. Each strand varies in color from brown to honey, giving GWC thatch a very natural authentic look.

JAVA

Java has a textured surface. The fiber strands look like natural thatch except with a rougher texture. The Java has a deeper range of browns and honey tones with darker textures.

SPECS: Length: 787 x Long Hand: 615 x Thickness Glue: 9.8 x Width Glue: 14.9 mm

CEBU

Cebu has a smooth surface and natural tones of toasty brown, light tan and Ivory or any other custom color.

SPECS: Length: 1000 x Long Hand: 600 x Thickness: 1.1
